We know how important it is for individuals to have the right support so they can live the life they want to live.

We support individuals with learning disabilities, autism, mental health needs and behaviours that challenge. Individuals are supported to hold their own tenancy agreement with a registered housing association. Individuals who are interested in living here may have previously been detained within a hospital setting and are ready for a step-down placement within their local community.

"I have been in 65 placements since being in care since I was 12 years old and you can tell that that they actually care about us here."

Resident

Situated in the heart of the Birmingham community, designed to a high specification, these supported living apartments offer homes with onsite support to adults with learning disabilities, autism, mental health needs and behaviours that challenge.

The service consists of sixteen self-contained apartments each with their own garden.

Offering experienced, trained staff twenty-four hours a day, the service benefits from a core staffing team of four support workers.

Each tenant would be allocated an experienced and consistent staff team and training is bespoke to individual support needs which enables tenants to live as independently and safely as possible.

How we support individuals:

Helping people to **build relationships and access whatever community activities they would like to take part in**

Providing **person-centred practical help for individuals** - such as training and support on how to manage their home, their money, gardening, housework and healthy living

Helping individuals to **set goals as part of their support plan**

Working with individuals to **find out their strengths, abilities and preferences**

We get to know the residents, their families, carers advocates and other people who are important to them and their care and support

Working with individuals to **help them achieve their goals**
